

## EasyChair Instructions for Reviewers

### Purpose

This document is intended to assist reviewers with use of the online review system for the AOSEC. To access documents and links referenced below, go to the Downloads section of the AOSEC website: <https://aosec2023.in/downloads>.

This guideline will help you to review assigned submissions for the AOSEC through the EasyChair system. Before submitting your review, be sure to review the evaluation criteria for the type of submission to be evaluated, available from the AOSEC website. Independent evaluation criteria have been defined for papers and paperless (non-refereed) presentations.

The following instructions describe the review process.

1. Familiarize yourself with the evaluation criteria for the type of submission to be reviewed. The evaluation criteria documents are available in the Downloads section of the AOSEC website (see the link at the beginning of this document). Authors have been asked to use these evaluation criteria as guidance for preparing their submissions; for consistency, these evaluation criteria must be used to assess all submissions.

**Figure 9: Evaluation Fields**

8. Assess the extent to which the submission meets each of the evaluation criteria and the overall contributions of the submission to the conference. For the *Overall evaluation* field, select a numeric score reflecting your recommendation on whether to accept or reject the submission and enter detailed comments justifying your score. Feedback in this field will be provided to the author to help improve the submission. To maintain review integrity:

- **DO NOT** include your name or other identifying details in your review comments.
- **DO NOT** state or refer to the selected numeric score in your review comments.

**Note:** Provide constructive comments based on the evaluation criteria. Limit comments to suggestions on how to improve the submission.

- Opinions and conclusions of the reviewer should not be captured, unless made as a constructive “have you considered” statement.
- Comments might include recommendations such as “the section on xyz should be shortened” or “the section on abc should be expanded to provide more detail. I suggest...” Be specific.
- Words of encouragement such as, “This is a great proposal; looking forward to the presentation” are always welcome when deserved.

9. For the *Reviewer's confidence* field, identify a confidence rating regarding your expertise in the subject areas of the submission.
10. For the *Confidential remarks for the program committee* field, provide any additional comments intended only for members of the program committee. This information will help the program committee to develop the conference program. Comments entered in this field will not be shared with the author of the submission.
11. Confirm that your review is correct and complete, then click **Submit review** at the bottom of the page (see Figure 9).

**Note:** If you revise your review, both the original and updated reviews will be visible in EasyChair. Try to avoid revising reviews if at all possible. If you need to make an update, explain the reason for the changes in the *Confidential remarks for the program committee* field.
